Logos - Quick Start Guide

For Application Service Providers (ASPs) and Suppliers

### Which logo to use?

October 2020

Transport Certification Australia (TCA) provides assurance services relating to transport technologies and data.

It's important that you use the correct logo to reflect the agreements TCA has with each ASP and supplier.

Our logos help stakeholders understand, at a glance, the level of assurance available from the ASPs and suppliers operating in the National Telematics Framework.

ASPs use the terminology and logo of the highest level of assurance attained

Terminology	Logo
Certification	**Level 3:** ⊘tca | Certified ⊘⊘⊘ ™
Certification	**Level 2:** ⊘tca | Certified ⊘⊘ ™
Registration	**Level 1:** ⊘tca | Registered ™

Type-approved Telematics Devices use the logo that corresponds with the level of type-approval attained

Terminology	Logo
Type-Approved	**Level 3:** ⊘tca | Type-Approved ⊘⊘⊘ ™
	Level 2: ⊘tca | Type-Approved ⊘⊘ ™
	Level 1: **N/A** There's no associated type-approval logo

Using TCA logos with Type-Approved OBM Systems

Terminology	Logo
Type-Approved Smart OBM System	**Category C:** ⊘tca | Type-Approved ™ Smart OBM System (Category C)
	Category B: ⊘tca | Type-Approved ™ Smart OBM System (Category B)
Type-Approved	**Category A:** ⊘tca | Type-Approved ™
